

Carpet Cleaner

1 teaspoon baking soda

1 tablespoon vinegar

1 cup warm water

1 teaspoon dish soap

Towel

20 oz. glass spray bottle

In a very large bowl, mix vinegar and baking soda (watch the fizz!). Add dish soap and pour into glass spray bottle. Top with warm water. With lid tightly on, shake. Pretreat stains by vacuuming, then spray generously with formula. Rub/dab with towel.

Tips:

You can skip the bowl and make this directly in the spray bottle, but be prepared to lose some mixture when the vinegar and baking soda combine and spill over!
