

Liquid Hand Soap

½ cup liquid orange castile soap

½ cup distilled water

1 tablespoon vitamin E oil

1 tablespoon almond oil

10 drops tea tree essential oil

5 drops lavender essential oil

5 drops eucalyptus essential oil

Glass container with pump

Add water into container, then add castile soap, then oils. Put top on and shake well. Shake before each use.

Tips:

Be aware that this liquid will be much less viscous and foamy than chemical soaps (but no less effective)
