

Sink & Toilet Paste

½ cup washing soda

½ cup baking soda

½ cup orange liquid castile soap

2 tablespoons white vinegar

15 drops tea tree essential oil

10 drops lemon essential oil

10 drops eucalyptus essential oil

Mix washing soda, baking soda and castile soap in bowl until pasty. Add essential oils and mix well. Add vinegar (it will fizz - that's ok!), mix well after it settles. Store in airtight container (a mason jar works perfectly).

To use, scoop a bit from the jar using the corner of a microfiber cloth, then scour surface as needed.

Tips:

You can use any combination of essential oils, but tea tree and eucalyptus have antibacterial properties.
