

# Liquid Laundry Detergent

2¼ cups liquid castile soap - orange

¼ cup distilled white vinegar

1 tablespoon glycerin

¾ cup water

20-25 drops essential oil (for scent) -  
orange, lemon, eucalyptus

32 oz. container or squirt bottle - not  
plastic

Combine all ingredients into container. Shake  
well before use. Squirt ¼ cup per load or ~4  
squirts into water as basin fills.

## Tips:

You can customize a combination of essential oils to  
achieve your desired scent. DO NOT expose wool, silk,  
satin or other sensitive fabrics to rosemary oil!

Use wool dryer balls instead of fabric softener! Scent  
them with the same essential oils in your detergent  
(apply a few drops and let dry before use).
